to me

Dear

Congratulations on being successfully accepted as part of the growing **Optimise Affiliate Members Program**. Your application is verified and your [Affiliate Kit](#) to startup your journey is as below:

Affiliate Kit

Referral Code: RC56740

Affiliate Member Code: UA56740

Contents to Share:

Training List:

[How to use the Affiliate Kit \(Guide\)](#)

1. Referral Code / Affiliate Member Code is a unique code that is given to you, each is different from other Affiliate members.

2. You are only allowed to share the Referral Code only to the public with contents under the section "Contents to Share".

3. You can use your Affiliate Member Code for the 20% discount benefit to all training under Optimise Academy.

4. Referral Code that is valid upon registration and payment will enable a 10% commission earnings to your account of choice (within 15 working days). No commission limit is imposed, T&Cs apply.

5. Referral Code used by other non-affiliate members will enjoy a 10% off total amount incurred. This code cannot be used with other seasonal code (provided by Optimise Academy from time-to-time), and cannot be redeemed as cash or any form of payment.

That's it, you can start to promote Optimise Training & Services in your preferred way.

We thank you for choosing **Optimise's Affiliate Members Program**. If you have any questions, then please don't hesitate to contact us.

Best regards,

Optimise Team

How to become an Affiliate

Step 3 → We will direct you to a website where you can copy our content template and just insert your affiliate code.
You can share it on your chosen platform. (eg: Blogspot)

Step 4 → Those who are interested will type your referral code into the “Have an Affiliate Code” row before paying for the training.

the support of top management to achieve triple bottom-line benefits.

3. Offer value-added energy audit services for the ASEAN community. If you are an energy auditor, you will be able to offer value-added energy audit services to your customer by incorporating thermal energy recovery of the process. You can also offer energy audit services under the newly announced Energy Audit Conditional Grant (EACG) which supports energy auditing of both electrical and thermal energy. Widespread and holistic implementation of Energy Management System covering thermal and electrical energy in the region is expected to significantly increase the demand for thermal energy analysis experts in Malaysia and across ASEAN.

If thermal energy is the leading energy cost in your manufacturing site.
