KIWACERT

Exempler Global Certified Course
ISO50001:2018 ENERGY MANAGEMENT SYSTEM LEAD AUDITOR TRAINING

ISO 50001 Energy Management System is an international standard. The standard specifies the requirements for establishing, implementing, maintaining and improving an energy management system, whose purpose is to enable an organization to follow a sysytematic approach in achieving continual improvement of energy performance, including energy efficiency, energy security, energy use and consumption.
