COURSE INTRODUCTION

The ESC Assurance Certification Lead Auditor Course is an intensive 3-day training designed to equip professionals with the skills, knowledge, and certification required to become qualified ESG (Environmental, Social, Governance) auditors.

This course integrates ISO auditing frameworks (ISO 14001/ ISO 26000, ISO 37001, ISO 19011) with ESG compliance, offering a robust, ISO-based approach to ESG auditing.

At the end of this course, participants will be qualified to conduct and lead ESG audits as part of a comprehensive assurance program aligned with the

KIWACERT ESG ASSURANCE: 2022 standards

COURSE OBJECTIVES

- To provide a comprehensive understanding of the ESG pillars (Environmental, Social, and Governance) and their relevance in today's business environment.
- To equip participants with the knowledge and skills to lead ESG audits in compliance with international standards such as ISO 14001, ISO 26000, and ISO 37001 etc
- To develop proficiency in planning, conducting, reporting, and managing ESG audits.
- To offer hands-on experience through mock audits, ensuring participants can apply theoretical knowledge in practical settings
- To prepare participants for Exemplar Global certification as ESG Assurance Lead Auditors, empowering them to lead audits for organizations seeking ESG certification, enhancing their professional credibility in the field of sustainability and corporate governance.
